

To Village of Clinton Customers:

The Village of Clinton is pleased to announce its plan to implement Electronic Direct Payment for your utility bills by this December. Direct payment allows you to pay your bills automatically from your checking or savings account on the due date. You do not have to take the time to write and mail a check or wonder if it will get to the Village on time. With Direct payment you will not have to pay a late fee again because the payment is electronically transferred each month by the due date.

Direct Payment also allows you to make automatic payments that are reliable, private, secure, clearly documented and more cost effective than paper payments. Signing up for Direct Payment will not allow anyone to view personal banking information such as your balance or account history. All you need to do is provide a voided check or a voided deposit slip, complete and return this application form for Electronic Direct payments.

#### APPLICATION FOR DIRECT PAYMENT

I/we would like to enroll in the Electronic Direct Payment Utility Billing Plan with the Village of Clinton.

_____ Print Name	_____ Phone Number
_____ Billing Address	_____ Account Number
_____ Signature	_____ Date

The effective date of the Electronic Deposit Payment will appear on your bill by stating something to the effect that “payment will automatically be deducted from your bank account on or about the due date.”
